Applicant:	Sung-Il PARK et al.	Conf. No.:	9574
Appl. No.:	09/550,282	Group:	2871
Filed:	April 14, 2000	Examiner:	Z. QI
For:	LIQUID CRYSTAL DISPLAY AND METHOD OF MANUFACTURE		

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

MS ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In Reply to the September 11, 2006 Notice of Allowability, the following comments on the Examiner's Statement of Reasons for Allowance are respectfully submitted in connection with the above-identified application.

COMMENTS

The Examiner's Statement of Reasons for Allowance lumps three separate independent claims together, one of which (claim 1) is a product claim, and two of which (claims 15 and 22) are method-of-making claims.

Applicants respectfully submit that claim 22, while it does recite forming a low reflectivity layer, recites forming the low reflectivity layer "over at least a portion of at least one of said gate line and said data line and on the first and

second portions," where a source electrode is recited as being on the "first portion" and a drain electrode is cited as being on the "second portion."

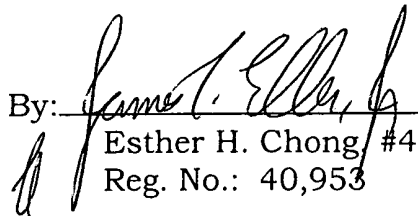

Claim 22 does not recite forming a low reflective layer on or over a channel region, although the Examiner's Statement of Reasons for Allowance indicates that it does and that is a reason for allowing claim 22.

Applicants respectfully submit that claim 22 is allowable despite the fact that claim 22 does not positively recite forming a low reflective layer on or over a channel region.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,

BIRCH, STEWART, KOLASCH & BIRCH, LLP
